Please write a brief description of the problem with which you are requesting assistance (attach copies of additional documentation):

The major issue I am having is that I have served in the USN for the last 10.5 years and now that someone says that I fail to meet perform to serve standards but gives no reason and the medical system is trying to do a medical evaluation board for to see if I am fit for duty. The big Navy is saving that since I cannot get my package all the way to Washington D.C by 13 August 2010 that I have to leave the service with no compensation from the Navy. All I will get is what the VA is going to give me. Having nerve damage in both soms from shoulder to finger tips and loosing strength and the ability to do any job but administration jobs I see as a problem.
